Vaccines

Seqirus, part of the CSL Group, is a new global company created from the combined strength and expertise of bioCSL and the influenza vaccines business formerly owned by Novartis. Seqirus is now the second largest influenza vaccine company in the world. With extensive research and production expertise and manufacturing plants in the US, UK, Germany and Australia, Seqirus is a transcontinental partner in pandemic preparedness and a major contributor to the prevention and control of influenza globally.

GSK's vaccine business develops, produces and distributes over 1.9 million vaccines every day to people across the world. GSK has a portfolio of over 30 pediatric, adolescent, adult and travel vaccines.

Moderna is a biotechnology company pioneering messenger RNA (mRNA) therapeutics and vaccines. In more than 10 years since its inception, Moderna has transformed from a research-stage company advancing programs in the field of mRNA, to an enterprise with a diverse clinical portfolio of vaccines and therapeutics across seven modalities.

Moderna's mRNA platform builds on continuous advances in basic and applied mRNA science, delivery technology, and manufacturing, and has allowed the development of therapeutics and vaccines for infectious diseases, immuno-oncology, rare diseases, cardiovascular diseases, and auto-immune diseases. Moderna has been named a top biopharmaceutical employer by Science for the past eight years.

At Pfizer, we apply science and our global resources to bring therapies to people that extend and significantly improve their lives. We strive to set the standard for quality, safety, and value in the discovery, development, and manufacture of healthcare products. Our global portfolio includes medicines and vaccines, as well as many of the world's best-known consumer healthcare products. We have a leading portfolio of products and medicines that support wellness and prevention, as well as treatment and cures for diseases across a broad range of therapeutic areas; and we have an industry-leading pipeline of promising new products that have the potential to challenge some of the most feared diseases of our time, like Alzheimer's disease and cancer.

Laboratory Testing

Quest Diagnostics empowers people to take action to improve health outcomes. Derived from the world's largest database of clinical lab results, Quest's diagnostic insights reveal new avenues to identify and treat disease, inspire healthy behaviors and improve health care management. Quest serves half of the physicians and health centers in the U.S.

Point-of-Care Testing

Abbott is a global leader in rapid diagnostic tests that deliver the right care, at the right time. Abbott's comprehensive portfolio of tests for infectious disease, cardiometabolic disease and toxicology provides fast, reliable and actionable information that helps improve quality of care and enable better clinical and economic health outcomes. CPG offers national leading contract pricing for their Afinion A1c testing, determine combo HIV testing, and Cholestech rapid lipid testing.

Exam Room Furniture

Midmark Corporation is committed to enriching experiences between caregivers and their patients by bringing clinical spaces, technology and workflows into harmony. Midmark offers full lines of exam chairs and procedure tables as well as workstations, casework, instrument processing, digital diagnostic solutions, and more—all designed to work together seamlessly. Midmark is dedicated to making healthcare safer and more efficient through location and rules-based automation, state-of-the-art software and real-time locating systems (RTLS) technology with the support of our expert consulting services to help improve patient care.

Personal Protective Equipment

SX Industries is a supplier, manufacturer, and distributor of Personal Protective Equipment (PPE). They previously specialized in Original Equipment Manufacturer (OEM) industries, providing manufacturing workers with PPE. When COVID-19 began, they found themselves in a unique position to try and help with the resources from previous relationships and distribution infrastructure.
